SUMMARY

Final-year student in Artificial Intelligence & Data Science with strong coding and problem-solving skills. Proficient in Java and SQL, passionate about building reliable, scalable software solutions. Quick learner and adapt for situations to contribute myself and Interested to work on live projects to showcase my skills also to gain and improve knowledge to level up my skills.

EDUCATION

ERODE SENGUNTHAR ENGINEERING COLLEGE

B.Tech Artificial Intelligence and Data Science; CGPA: 8.0

Erode, India

2022 - Present

BHARATHI MATRIC HR SEC SCHOOL

Higher Secondary - 12th; Percentage: 65%

Palladam, India

2021 - 2022

BHARATHI MATRIC HR SEC SCHOOL

Secondary - 10th; Percentage: 62%

Palladam, India

2019 - 2020

SKILLS SUMMARY

- **Languages:** Java, SQL, JavaScript, Html, Css
- **Tools:** Excel, PowerPoint, MySQL
- **Platforms:** IntelliJ, Visual Studio Code
- **Soft Skills:** Team Work, Time Management, Communication

PROJECTS

Railway Ticket Reservation System

- Java-based console application that simulates real train ticket booking with berth preference handling,
- RAC and Waiting List management, and automatic seat reallocation on cancellations using Java Collections and OOP concepts.

Library Management System

- Java-based console application that simulates real library management systems.
- The system provides a clean console interface with formatted output tables, making it easy to visualize book inventory, user information, and transaction records. All four Java files are ready to use and can be compiled and run immediately.

INTERNSHIP AND TRAINING

Java Programming Course – Cybernaut

Aug 2023 - Sep 2023

- Completed training on Java fundamentals, OOPs, and problem-solving.

CERTIFICATES AND ACHIEVEMENTS

- Solved 150+ problems in Geeks for Geeks
- Completed java course in Cybernaut
